I was driving down Darrow Rd. towards Hudson when the Kia Soul pulls out of the side street. She pulls through the intersection and ~~stops~~ stops. I start to hit my brake and my horn. she finally looks over at me and inches up a little more. I swerve to the right to avoid her car and hit the bumper.

I was going to pull out from Highby to go south. There were barrels because of construction going on further on 91.

Watching traffic & coordinating my turn (looking north, looking south) I pulled out somewhat to see if I could get into the south lane.

Well, all of a sudden there appeared a red car going north. I heard a horn & put my foot on the gas to move into the south lane.

Our cars met - mine on the drivers side in the or on the back bumper. I might add - the barrels can be confusing on 4 lane roads. There must be a better way to do this
