Christmas Tree recycling after the Holidays

The City of Stow and their Urban Forestry Commission wish you all the joys that this holiday season has for you! We wanted to share information about what to do with that once fresh cut tree after the season.

Please drop the used tree at the Christmas tree drop area located at 5070 Stow Road, near the community gardens. Once it is dropped off, Stow's Urban Forestry employees will chip the tree into mulch. This mulch is made available free to City of Stow residents on a first come first serve basis in Stow's brush drop off site.

The Christmas tree drop off site is open 24 hours a day, 7 days a week from December 26 to the end of February. Trees must be totally void of decorations and not wrapped in plastic. On average, 800 trees are dropped off each year. Use, repurpose and help Stow become more sustainable by placing your tree at the Christmas tree drop off site.

Questions, please contact Jeff Napieralski, City of Stow Landscape Arborist at (330)689-5121 or jnapieralski@stow.oh.us

Happy Holidays!
