

April 2026

From the Stow Environmental Commission - Commercial Solar Tax Credit

Reminding all Stow businesses and landlords with LLCs. If you've ever thought about adding solar panels to your business, now might be the time to look into that. And save 30% of the cost.

A federal Investment Tax Credit is available for commercial solar projects that:

1. **Start construction before July 4, 2026** with no deadline as to when the project is placed into service;

OR

2. **Finish construction by December 31, 2027** with the project placed into service by the end of 2027.

Businesses with projects that qualify can get a federal tax credit good for 30% of the solar project cost.

To learn more, consult with your tax advisor and a solar installation company.
