 I was pulling out of a parking lot while turning left to get into the right lane as I was planning on turning right out of the parking lot. Someones parent hit me out and as I made it halfway across the left lane I collided with Mikey's car, that prior to turning was not there. Mikey was in the left, the one I was travelling across. As I began to pull forward, approaching the right lane, Mikey's car also accelerated in the left lane. His car was not visible when I began heading to the right lane.

I was sitting at the end of the aisle waiting for my opportunity to proceed to the furthest right hand lane. A parent waved me through, so I proceeded forward. I stopped halfway across the left lane and waited for the others in the right lane to move forward. So I could complete my turn into the right lane. I needed to confirm no one would be in my way and continued forward. Mike's car came in between the right and left lane, in front of the parent to try to go around me, striking my car.

Officer Smith,

Please attach this additional information and diagram to my statement.

I was too emotional when I wrote my statement and wasn't sure if I included the facts of how the accident actually occurred. Thank you.
