 I was behind the white Honda the ~~was red~~
~~and 2 cars~~ the light was red they went
 through, the blue subaru was turning left
 cause they had claim the intersection and
 had the right away. So as the blue
 subaru turned the white car ~~went~~ went
 through the red light and hit the
 blue subaru on their passenger side.
 The white car went up on one side
 from how hard they hit the blue subaru.

Amended statement 08/15/22:
 The light was actually green I know
 this because I continued after light because
 the blue car almost hit 2 cars but only
 made contact with one car.

 I was turning left into Acme on Kent Road, I had a green light and slowed down to turn when it appeared the other car sped up to go ahead of me. An eyewitness explained they had been driving recklessly previously. I was slowing down and it hit my car extremely hard enough to almost flip it.
