I was headed West at the intersection of Fairchild/Graham Road and the sun was in my eyes and the two cars ~~ahead~~^{S/S} heading East were proceeding through the intersection and I believed the light was green for my direction. Due to the brightness and height of the sun I was not able to see what color the light was, even with the visor down and covering with my hand to ~~block~~^{S/S} attempt to block the sun to see the ~~light~~^{S/S} traffic light.

Off. GABEL 760 AT Newcomer Ro. / Graham Ro.
OFFICER'S NAME LOCATION

I just left home and drove south on Newcomer, I slowed down to turn left onto Fairchild, and two cars drove past, moving west, through a red light. My light was green, I assumed they were trying to cut it close at the yellow light. I started to turn left and another car, black SUV, was driving through, going west. We both slammed on our brakes and our cars hit, the front of both. We were both able to get out, make phone calls, and check that we were both okay. He explained that the sun was right behind the traffic light and he thought it was green, which also explains the two cars I saw go through the red light earlier. We were both able to reverse our cars and move them off the road.
