I was exiting the parking lot, I had my turn signal on and the next car coming down the road was waiting to turn right in to the lot, there was 3 or 4 cars behind it, no traffic coming south in the middle lane. I was waved out, so I slowly kept out to go north, when one of the back cars decided not to wait and went around. At this point my front tires were in that lane attempting to turn left, then crash it was all bad at that point.
