DESCRIBE WHAT HAPPENED

Driver #1 was attempting a left hand turn. At this same time, Driver #2 was turning right into the same private area Driver #1 was leaving from. Based on Driver #1's statement they continued turning left despite Driver #2 slowly approaching. Driver #1 stated Driver #2 did not have their turn signal activated at the time. Based on the positioning of both vehicles, Driver #2 appears to have made their turn too wide and into the right side of the private drive. Based on my investigation both parties are at fault. Driver #1 did not properly clear before turning left and Driver #2 failed to signal and made a right turn too widely. Pictures are uploaded.
