OH-1 Supplemental Narrative

The driver of Unit #2 claimed there was an unknown third vehicle that caused the accident. The driver claimed a vehicle tried to pass them on their right, forcing them to the left, where they struck Unit #1. There was a small mark on the rear passenger side bumper. This damage had salt debris covering it completely and was not consistent with fresh damage caused by an accident that would have just occurred. The driver of Unit #2 had just purchased this vehicle on 12/15/23, and he could not remember if this damage had already been on the vehicle or not. The driver of Unit #2 also claimed he was not sure if the alleged vehicle even made contact with him. It should be noted that the only way a vehicle would be able to pass Unit #2 on the right would be if Unit #2 made a wide right turn prior to an attempt to pass Unit #2, or if this alleged vehicle went off the roadway and tire marks were not observed in the snow.

I spoke with the witness on the telephone who was directly across the street when the accident occurred, as she was leaving Reb Lobster. She stated they were the only two vehicles present on the exit ramp and that Unit #2 had made a wide turn and struck Unit #1 by leaving his lane.
