The cars in front of me stopped suddenly and as I was braking behind them I started to slide. From the rain, I was going 25 when starting to brake. It appeared the lane to my right was open so to avoid rear ending the car in front of me I put on my blinker and started to go into the other lane, the other car being in my blind spot. When I started to merge, the side of my car collided with the wheel of the other drivers car. I then pulled in front of her with hazards on and pulled off the road to exchange information.
